

# WELLNESS LABORATORY TESTING

The **Wellness Laboratory Testing** program offers a different type of service for our customers. While this program does not take the place of medical care, it is another tool for patients to manage and monitor their health.

- Testing is offered from 8 a.m. to 4 p.m. Monday through Friday.
- A physician's order is not required for only these tests.
- Everyone under 18 must be accompanied by a parent or guardian.
- There is no need to stop at the Admissions desk – come directly to the laboratory for testing.
- Results are sent directly to you within one week of specimen collection.
- A brief explanation sheet will be sent with your results. See **Detailed Description of Wellness Tests**.
- Payment must be received at the time of service by check, in cash or by credit card.
- Insurance will not be billed including Medicare, Medicaid or commercial insurance.
- The customer must consent to take responsibility for the follow-up of any abnormal test results.
- Results are not sent to your Medical Record. You are encouraged to share them with your personal health care provider.
- If the test requires fasting do not eat any solid or liquid food for 12 hours and no alcohol for 24 hours prior to specimen collection. Medication should be taken as directed by your health care provider with small amounts of water.
- Tests must be chosen from the limited testing list. See **Wellness Test Menu**.
